Open Testimonial for Tracy Rose

I have known Tracy Rose for almost twenty years. She initially worked for me in Almunecar International School as a music teacher when I was Headteacher. After that, she worked for many years at St. George's School, Malaga, a school I helped found. I have been Headteacher of the school for 9 years and am now General Director of the St George's Group.

Tracy is an outstanding teacher. There are many reasons for her extraordinary quality. Above all, Tracy loves making music and her enthusiasm is infectious. Her lessons are practical and varied in approach, but at the same time she teaches the theory in a structured and effective way. The students are highly motivated and participate fully in the activities.

Tracy enjoys excellent relationships with the students and she has no serious discipline issues to deal with as the students are always so engrossed in what they are learning. Similarly she is highly respected by staff and parents, and is hugely popular.

In addition, Tracy has supported the school in many other ways, especially in the organisation of assemblies, special events and shows. The quality of her contribution is always excellent. As Head of our Music School, she has worked tirelessly and effectively to build a strong team and to gain impressive results in the examinations.

Tracy is without doubt the most impressive music teacher I have ever worked with. I can recommend her to you as a truly outstanding professional.

James Shallcross MBE
General Director
