

## **Sibelius and Cubase Correspondence Lessons**

**Designed for especially busy students!**

**If you're unable to commit to regular weekly lessons, our multi talented Sibelius and Cubase teacher, Dan, will still be able to provide you with his expertise and quality teaching!**

### **Introduction**

With fewer, but flexible contact teaching hours and time made up through tuition-by-email, you can learn at the same pace as if you were taking regular weekly lessons.

Our regular batch of four lessons is made up of 4x 60 minute lessons (a total of 240 minutes).

Our Sibelius and Cubase Correspondence Lessons offer the same block of time that your teacher Dan spends teaching you, but divided between contact lesson time and tuition-by-email.

### **Choose lesson times which suit you**

You can arrange with Dan, when you would like to schedule your contact lesson or lessons.

The Correspondence Lessons offer either one or two contact lessons, with the rest of the time made up through tuition-by-email.

### **Tuition-by-email**

You can send material such as videos, audio recordings, scores etc, for assessment, accompanied by typed notes and questions, to your teacher.

When Dan begins spending time on the emailed correspondence (reviewing it, researching material to be sent back, responding, etc) he starts counting the time he takes.

With the tuition-by-email material that Dan returns to you, he will also notify you of how much time is left in your block of time. You will then know exactly how much tuition-by-email time remains in the block.

For speed of production, your tuition-by-email from Dan will take the form of videos and audio recordings. This media may make it faster for Dan to record your tuition material, thus you will receive more tuition for your time. Scans, screen grabs, typed notes etc, may also be included.

### **Sibelius and Cubase Correspondence Lessons prices**

Prices are the same as for the time you receive from Dan, for regular batches of four lessons:

**60 Minute Correspondence Lesson** - 160 Euros:

1x 60 minute contact lesson + 180 minutes tuition-by-email

**or**

2 x 60 minute contact lessons + 120 minutes tuition-by-email

### **Terms**

Each Correspondence Lessons package runs for one calendar month and is valid for one month only.

The month begins from the date that payment is made (eg. if you pay on 3rd October, the Lesson time allowance is valid until 3rd November).

The Correspondence Lessons run from month to month but a month's break occasionally, for holidays, other commitments etc, is acceptable.

No credit for time from one month may be carried over to the next month.

Contact lessons can be pre-booked any time after payment is made, with arrangements made between Dan and yourself. Contact lesson days and times are dependent on Dan's availability.

You will receive lesson notes after a contact lesson, as usually supplied with regular lessons (within 24 hours of the contact lesson).

Tuition time by email is flexible and need not be pre-booked.

Once the lesson day/s/time/s are confirmed they are fixed and inflexible.

However, inflexibility of pre-booked lessons is up to Dan's discretion.

He might be able to reschedule a pre-booked lesson, if you are unable to attend, providing you give more than 24 hours' notice. But Dan is not obliged to reschedule any pre-booked lessons.

A record of time for tuition-by-email, for each student, is kept by Dan. Although you will be informed of how much time you have remaining, you may ask to view this at any time.

When Dan begins spending time on the emailed correspondence (reviewing it, responding, researching material to be sent back etc) he begins to record that time he spends working.

Dan will return your tuition-by-email within 3 days of your sending material to them. You may contact Dan and Tracy if your tuition-by-email is late for any reason.

**Have fun learning with us and if you have any questions, please just ask!**
